

The Future of Science and Technology in Europe

Research Institutions

Professor Linda Nielsen, University of Copenhagen
Former Rector and President of the Rectors Conference in Denmark
Special Advisor to EU-Commissioner for Education Jan Figel

1. Globalisation – Europe should cooperate more in a global context
 - More cooperation with “Chindia”, USA and others
 - Joint programmes on global challenges
 - Focus on European strongholds
2. Mobility of researchers – “brain circulation”
 - “Come-home-stipends”
 - Single labour market for researchers – flexicurity
3. Research institutions’ performance
 - “Development contracts”
4. Research institutions and innovation
 - Expand “problem-based” research-programmes
 - and secure basic research
