

## The Future of Science and Technology in Europe

Universities and S&T development  
- regional and international dimensions

Professor Linda Nielsen, University of Copenhagen  
Former Rector and President of the Rectors Conference in Denmark  
Special Advisor to EU-Commissioner for Education Jan Figel

## 1. Encourage regional cooperation

- Examples: Scanbalt Bioregion; Øresund and Eastern Asia

## 2. Tech Trans

- Encourage collaboration between research/industry in one country with similar cooperation in another country – remove barriers
- More programmes for SME's, i.e. "Marketplaces" on specific topics
- Taskforce to reform IPR – to adapt to the differences between Europe, US and Asia

## 3. Universities

- Encourage cooperation, strategic alliances and merging to obtain critical mass

## 4. Globalisation

- Open Europe up to globalisation – "Chindia", US and others
- Joint programmes on global challenges
- Focus on European strongholds
