# YHome

## YHome

YHome is a breakthrough product which makes *Web* and *Local* content available through a *Simple Interface*.

- No need to turn on your computer
- Immediate access to the latest information
- One touch away from local services
- Always available
- A real life facilitator

## YHome

- Panel PC – Interactive touch screen with an internet connection. YHome can be portable or mounted to a fixed place.
- Content – Useful and local information and services available around the clock to satisfy immediate needs.

- For those who check the traffic before leaving the house...
- For those who need a pharmacy nearby and open at night...
- For those who want to order a meal
