I Workshop of the Thematic line **Unity of Science and** Interdisciplinarity

How to Think Interdisciplinarity

13 March 2015 Anfiteatro da Fundação da Faculdade de Ciências da Universidade de Lisboa 10h-17h

INSTITUTO DE CIÊNCIAS SOCIAIS

Does it still make sense to speak about Unity of Science when today everything seems to point towards dis-unity, and to the fragmentation of scientific knowledge? We assume that science is made of two opposite yet correlated tendencies: the tendency towards specialization and the tendency towards unity. Although specialization favors the precise delimitation of areas and their analysis, the search for integrative links among disciplines remains an important task.

Since the second half of the 20th century we consider that the tendency to Unity of Science took the form of interdisciplinarity. By this term we understand the actual manifestation of unity of science, a slow, vast movement that drives at a deeper level what at the surface is nothing but a puzzling set of disciplines, linked by what appears to be only political or institutional interests.

Unity of Science and Interdisciplinarity is a thematic line deeply committed to presenting a comprehensive analysis program of interdisciplinary (unifying) procedures, strategies and practices of contemporary science, aiming to research the transfer of concepts, hypothesis and results from one discipline to another, that is, the transversal rationality which underlies current scientific activities. We believe that philosophy, although not claiming the position of some sort of higher knowledge, above science, may constitute an important analytic locus of the interdisciplinary features which characterize contemporary scientific activity.

	10:00 - 10:15	Welcome Session with Olga Pombo (CFCUL)	
		CONFERENCES	
	10:15 - 11:15	Interdisciplinarity: What a confusingly complex a Uskali Mäki (Academy of Finland Center of Excelle Social Sciences (TINT) – University of Helsinki)	set of issues! nce in the Philosophy of the
	11h15 - 12:15	Unity of Science and Interdisciplinarity (Olga Pombo – FCUL /CFCUL)	
	12h15 - 13:00	Discussion	
	13:00 - 14:30	Lunch	
		PROJECT PRESENTATIONS	
	14:30 - 15:00	New Horizons in Interdisciplinarity Scientific Reso (Maria Eunice Quilici Gonzalez – UNESP)	earch - NHISR
	15:00 - 15:30	Interdisciplinarity in research programming and funding cycles (INTREPID) (Olivia Bina – ICS, INTREPID Main Proponent / Marta Pedro Varanda – ISEG, INTREPID Co- Proponent)	
	15:30 - 17:00	WORK MEETING
