

Trainee's Project Report

Job Code	GS1102
Department	GS
Discipline	Civil Engineering
Supervisor	LOPEZ-HERNANDEZ Luz Anas

Description

The trainee will carry out the following functions:

- perform quality, schedule and cost control for civil engineering projects in collaboration with CERN engineers
- ensure that all surface and underground civil engineering structures under construction comply with the contract drawings and documents
- liaise with CERN's other technical groups and internal/external designers involved in the project to ensure that the work is carried out correctly

Special Requirements

- Higher technical diploma or equivalent in civil engineering.
- Some practical experience with computer-aided design tools
- Good overall knowledge of civil engineering

Training Value

The trainee will gain valuable experience in civil engineering construction and in project follow-up procedures
